SUBJECT: Implementation of Revised Procedures for PayMaya Transactions and POS Operations

Dear Team,

To enhance the accuracy and efficiency of our transaction processes, the following procedural updates are to be implemented immediately:

1. **PayMaya Transactions:**

- **Trace Number Utilization:** For all PayMaya transactions, the **trace number** from terminal receipts will now be used as the primary reference, replacing the reference number in tendering POS transaction. This change aims to standardize transaction tracking and reconciliation.

2. **Daily Submission of Statement of Account (SOA):**

- SF units are required to submit a **daily SOA** to ensure timely and accurate financial reporting.

3. **Client Classification:**

- Clients must be accurately tagged as either **Postpaid** or **Prepaid** in our systems to standardize transaction tracking and reconciliation.

4. **Correction of Incorrect Tender Entries:**

- In instances of incorrect tender entries in the POS system:
 - The POS receipt must be manually corrected.
 - The correction should include the following details:
 - **Driver/Company Name**
 - **Plate Number**
 - **Customer Signature**
 - The customer must **countersign** all corrections to validate the changes.

5. Transmittal of Daily Sales Report (DSR) Hardcopies:

- The current practice involves Area Heads and Auditors utilizing hardcopy DSRs for auditing purposes. A detailed discussion will be scheduled to review and potentially revise this process to enhance efficiency and accuracy.

6. POS System Modifications (c/o Realsoft):

- To modify the POS system to enable:
 - Correction of incorrect tenders, particularly distinguishing between postpaid and prepaid transactions.
 - Posting of advance payments directly within the POS system.

Your adherence to these updated procedures is crucial for maintaining the integrity and efficiency of our operations. Should you have any questions or require further clarification, please do not hesitate to reach out.

Thank you for your cooperation and adherence to this schedule.

Best regards,
