

MEMORANDUM

DATE: April 10, 2025
TO: SH/AAS/AM
FROM: Roberto Dungca Jr.
CC: President/Vice President/HR Manager/AROM/Auditor
SUBJECT: Prohibition on Installation of Unauthorized Structures Within Station Premises

Dear Team,

To ensure smooth and safe day-to-day operations at all our fuel station locations, this memorandum serves as a **formal directive** prohibiting the installation of any temporary or permanent structures within the station premises **without approval** from management.

Specifically, **no structures**—including but not limited to kiosks, tents, booths, signage, or vendor setups—**shall be placed near station entrances or exits**, or in any area that may **impede vehicle flow, block emergency access, or create hazards** for customers and staff.

 Unauthorized structures may:

- Obstruct vehicle entry/exit points
- Hinder emergency response access
- Compromise customer and personnel safety
- Disrupt fuel dispensing operations
- Violate local safety and zoning regulations

All station supervisors are directed to strictly enforce this policy and coordinate with the Operations Heads before allowing **any on-site installations** by third parties, tenants, or partner vendors.

 Any violation of this directive will result in the immediate removal of the structure and possible administrative action.

We count on your cooperation to maintain an efficient and hazard-free station environment.

Thank you.
